CEPSTRUM WEBOPS HEAD AGENDA

- New UI implementation—> Implementing new ui ux features for the website
- Changing platform for Paperman—>Currently the paperman doc are uploaded on onedrive so user gets redirected to onedrive for accessing materials , so shifting paperman online on our own website would ease the process
- Inplex Changes—>(1)Implementing an edit feature on the website allowing users to edit their entries in Inplex
(2)Imrove form submission method on inplex for easing the process of entries
